PROFILE

Passionate and driven web development student seeking to apply my skills in HTML, CSS, JavaScript, React, and modern web frameworks to contribute to a dynamic education-focused team. Eager to learn and grow while assisting in the promotion and management of educational programs and technologies.

EDUCATION

B.Tech in Computer Science & Engineering

Passout-2024

DKTE Society's Textile and Engineering Institute, Ichalkaranji

CGPA:-7.47

TECHNICAL SKILLS

Frontend Development: -HTML,CSS,JavaScript,React

Backend Development: -Core Java,Node.js,Express.js,RESTful APIs

Database Technologies: -MongoDB, SQL

Web Development Tools: -Git, Github, VS Code,Postman (API testing)

PROJECTS

Crowdfunding Platform

01/2024 – 05/2024

- Developed a donation-based crowdfunding platform using the MERN stack (MongoDB, Express.js, React.js, Node.js) to support artists and individuals needing medical funding.
- Designed a central hub where users can connect with supporters, showcase their needs, and securely seek funding.
- Integrated MongoDB for database management, allowing for seamless data storage and retrieval.
- Implemented React.js for the frontend to create a dynamic and responsive user interface.
- Used Node.js and Express.js to build a RESTful API for handling user requests, donations, and communications.

URL Shortener

- Developed a full-stack URL Shortener web application using React.js, Supabase, Tailwind CSS, and Shadcn UI, with features like user authentication, URL redirection, and QR code generation.
- Implemented secure authentication (login/signup) with Supabase and integrated protected routes using React Context API and Row-Level Security (RLS).
- Built a real-time dashboard displaying URL analytics including click count, location-based stats, and pie chart visualizations, enhancing user insight and engagement.
